

DIPLOMA OF SPECIAL EDUCATION

The diploma in special education is a programme that focuses on providing students with the practical skills and knowledge required to work with and train individuals with special needs, providing basic care and teaching life skills, behaviour moderation techniques and social skills to deal with children with disabilities and special needs.

The primary objective of the program is to prepare and train teachers at the pre-primary and primary levels.

Diploma in Special Education Overview

The main objective of this Diploma in Special Education is to train candidates to care for and teach children with special needs or disabilities. The course of the diploma program equips them with the knowledge about various facets of disability, its effect and management. Students are also taught to take care of the educational needs of children with disability and their organizations. Lastly, the candidates are familiarised with the various areas of child development and their mental process.

The diploma course also aims to develop the skills of the candidate regarding the classroom management techniques and personal, professional, and social competencies necessary in the special education professional. The program also aims to develop the proper attitude of the candidates towards the teaching profession and the eminent role that teachers play in the ever-changing society. Candidates are also trained to guide children with solving their academic problems as well as to sort out their behavioural issues.

The areas of study in the course of Diploma in Special Education include the basics and introduction to disabilities, human growth development a lifespan approaches educational assessment, teaching strategies, and material development. Candidates are also trained in therapeutics for children with mental retardation and associated disabilities. Future teachers are also taught the techniques of inclusive education for children with disabilities and special needs.

Why study Diploma in Special Education?

Studying a Diploma in Special Education offers several compelling reasons:

Make a Positive Impact: Special education teachers play a crucial role in supporting students with special needs and making a significant impact on their lives. By pursuing this diploma, you can contribute to the educational and overall development of these students, helping them reach their full potential.

Fulfilling and Rewarding Career: Working in special education can be highly fulfilling and rewarding. You have the opportunity to witness the progress and growth of students, celebrate their achievements, and make a difference in their lives. It provides a sense of purpose and satisfaction in knowing that you are positively impacting the lives of individuals with special needs.

Increasing Demand: The demand for special education professionals continues to rise. With an increasing awareness of inclusive education, there is a growing need for trained individuals who can effectively support and educate students with special needs. Pursuing a Diploma in Special Education can open up diverse career opportunities and enhance your employability in the education sector.

Skill Development: This diploma equips you with specialized knowledge and skills related to assessment techniques, individualized education plans, behavior management, and inclusive teaching methods. These skills are transferable and valuable not only in special education settings but also in other educational contexts, providing you with a versatile skill set.

Personal Growth and Learning: Studying special education promotes personal growth by deepening your understanding of diverse learning needs, fostering empathy, and enhancing your communication and problem-solving abilities. It allows you to develop a greater appreciation for diversity and inclusion, which can positively impact your interactions with people from various backgrounds.
